-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-6, 8, 12-14 and 17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cuffey et al. Applicant's arguments have been considered but are not deemed persuasive. Applicant argues that Cuffey fails to teach that his paperboard is made of unidirectional tearable material and that it is well known that tearing paperboard in every direction is almost the same. However, Cuffey clearly discloses that his paperboard has a grain direction and that the paperboard tends to tear in the grain direction; see column 1, lines 44-46. Furthermore, Cuffey discloses that materials other than paper can be used (see column 5, lines 69-73) and applicant discloses that paper can be used; see [0010]. Applicant also argues that Cuffey fails to teach that the tearing direction, i.e. the grain direction, is across a linear perforation. However, this is not true because Cuffey clearly shows the tearing direction across a linear perforation in Figures 3-15; note the grain direction and the slits in the Figures. Finally applicant argues that Cuffey fails to teach that the grain of the paperboard is the only tearable direction for his paperboard. However the article in Cuffey will clearly tear in a direction of the linear slits which is not in the same direction of the grain of the paperboard.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1772

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 7, 9, 16 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cuffey et al. Applicant's arguments have been considered but are not deemed persuasive for the reasons of record and for the reasons set forth above in paragraph 1.

4. Claims 10, 11, 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cuffey et al. Applicant's arguments have been considered but are not deemed persuasive for the reasons of record and for the reasons set forth above in paragraph 1.

5. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cuffey in view of Friedland et al. Applicant's arguments have been considered but are not deemed persuasive for the reasons of record and for the reasons set forth above in paragraph 1.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1772

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
